Dear Parents,

*Vacations are the most appropriate time for kids to refresh and rejuvenate themselves, be creative, learn new skills and perform more enthusiastically. Children have ample energy which should be channelized in the right direction to get the best out of them. We have designed holiday homework, keeping this in mind. It will build their confidence and new skills.*

Few tips for parents to make the vacation a fruitful time for their child.

- **Be a Friend:** Play games with your child like – Ludo, Carom-board or Scrabble. Explore Nature: Take your child for a morning walk, count trees, cars, stones, flowers, etc. while going for a walk.
- **Brain Activation exercise:** Do brain exercises with your child to sharpen his/her memory.
  - a. **Hunt the Rabbit-** You got one hand doing rabbit ears and the other hand pointing at it, just like it's a rabbit. Now keep on switching. It is really challenging.

So, you must put every effort to ensure that the child starts learning this international language as early as possible. Make sure to converse in English with your child to build up his/her confidence.
- **Teaching good table manners to kids:** Table manners and dining etiquette can go a long way towards building a child’s confidence in social situations. Write it down or draw pictures to make it more interesting, so that they translate the same manners while dining out or at home.

- **Come to the table with clean hands and face.**
